## ANCIENT "BLUE LAWS" ARE SCRAPPED BY ANTIOCH BOARD

Forty-Year-Old Ordinance Repealed — Mayor Names Committees

No more will Antioch's crack rummy players have to sneak to cover to enjoy their favorite pastime — no more will those of sporting blood seek the dark recesses of some village alley to stage a cock-fight; and if you desire, you can promote a horse race or a baseball game within the corporate limits of the village, and you can even ride a bicycle on Antioch's streets on Sunday, all with perfect propriety. This sudden broadmindedness comes through the repeal of two of Antioch's most famous and most ancient "blue laws."

The village board so decided at the May meeting Tuesday night. The ordinance prohibiting card playing in public places appears on the records as the first enactment of the board of trustees after Antioch was incorporated in 1893. A. G. Watson was mayor. This ordinance, long forgotten by most of the inhabitants, was disregarded utterly for many years, until quite recently with the return of beer and hard liquor and the opening of taverns, the old ordinance was brought to light and its enforcement ordered.

Along with the repeal of this ordinance Tuesday night, the other "blue law" prohibiting Sunday baseball, chicken fights, horse racing and bicycle riding, as provided in the provisions of a 38-year-old ordinance was also scrapped. It was passed in 1896 when A. G. Watson was village president.

## Lake Villa Girls Hurt in Auto Wreck

Car Forced from Road as Girls Are Driving to H. S.

Two high school girls, Leone Buchta, a freshman, and Ellen Philipp, a senior, were injured and two others, Florence and Helen Buchta, received minor cuts and bruises yesterday morning shortly after eight o'clock when the car in which they were driving to school was forced from the road. All the girls are from Lake Villa.

The girls had just rounded the curve at Loon Lake heading north when a car which had been parked on the west side of the road suddenly started up and swung in front of them. To avoid colliding with the other car, Miss Philipp swerved sharply, taking the ditch and striking several large stumps. Leone Buchta when thrown against the shattered windshield received severe gashes in her head and a cut from mouth to chin. She was given immediate treatment by Dr. H. F. Beebe and sent to the Victory Memorial hospital in a semiconscious condition. She and her sisters are daughters of Leo Buchta, an employee of Ed Lehman, Lake Villa.

Miss Philipp, daughter of John Philipp, Lake Villa station agent, received injuries to her nose and was taken to the Victory Memorial clinic for examination. The car, a Plymouth coupe owned by the Philipp girl, was smashed almost beyond repair.

The identity of the driver causing the accident is not known as he fled the scene without stopping to observe the outcome of the accident.

## Case of Scarlet Fever Is Reported

Marcella Rosenstock, first grade, daughter of Mr. and Mrs. C. B. Rosenstock is ill at her home with scarlet fever.

An examination of all grade school pupils was made twice last week by Dr. H. F. Beebe, health officer, who found that no other cases had developed. There is no danger of contagion arising from the school from that source, Dr. Beebe stated.

## Oil Car's Travels Halt in Lumber Yard

Apparently tired of being drawn along tracks in the wake of an engine and other box cars, an oil car on the Soo Line railroad started out on an independent journey Monday morning, when an employee of the Shell Gas Co. detached the car and attempted to move it a short distance.

The car rolled gleefully along until confronted with the lumber yard, but not deigning to consider that institution a worthy obstacle, it crunched on through the doors much to their embarrassment and hard luck. However, the car was eventually halted.

## Two Channel Lake Cottages Razed By Fire; Loss Is \$13,000

Firemen Save McGuffin Subdivision from Destruction

A large fire which resulted in the total destruction of two Channel Lake cottages owned by Mike Galvin, Chicago, and damages to a third was checked from consuming the entire McGuffin subdivision on the west side of Channel Lake Monday evening by the valiant efforts of the Antioch Fire Dept.

Residents of the community were startled shortly before 9:30 Monday night by a terrific explosion of so violent a nature that Mrs. Tom Runyard who lives about one-fourth of a mile from the Galvin cottages, was thrown from her bed. The larger of the houses, a two-story residence, was discovered to be on fire and a call sent in to the fire department.

Despite the swift arrival of the department, the fire has assumed such proportions that the house was unable to be saved. The smaller cottage to the north, believed to be the property of Galvin, became ignited and was almost totally destroyed.

A cottage to the south, belonging to Fire Chief Donovan, marshal at St. Charles, Ill., was saved from destruction by the fire department, although it became ignited. Damages were estimated at \$100. Had the fire not been checked by the firemen, the entire subdivision including a group of about a dozen cottages would have been razed.

The larger Galvin house was found to be insured for \$10,700, and the contents for \$2,000. The cause of the fire is undetermined, although the First Assistant State Fire Marshal Dorthey of Chicago is making an investigation.

The Galvin cottages have been unoccupied since last summer, although it is reported that a visit was made the day before the fire.

A test run was made by the Lake Villa Fire Department to Crooked Lake Oaks yesterday afternoon, the run being made in record time, 17 minutes, from the time the call was received. The firemen were unaware that they were not being called to a real fire.

## Hunter Golf Club Plans Guest Days

The Hunter Golf Club at Richmond has announced that guest days are to be designated for the various neighboring towns and localities during the 1934 season when residents of other communities will be asked to visit the course and to play as invited guests of the club. As a venture in good-will advertising this novel entertainment idea is expected to bring many visitors who hitherto have not known the beauties of this popular 18-hole golf course.

"Antioch Day" at the Hunter Club will be announced in the near future, club officials say.

## H. S. Baseball Team to Encounter Barrington Outfit

The third conference game of the season will be played by the Antioch high school baseball team tomorrow afternoon with Barrington when the southern school journey here for the game.

So far Antioch's record stands at 500 per cent, having taken the opening game from Wauconda last Friday 5-4, and dropped a hard-fought game with Lake Zurich here Tuesday 5-4.

## ANTIOCH TO HAVE INVITATIONAL TRACK MEET SAT. MAY 26

Seven Towns Entered in Meet Sponsored by Local Future Farmers

For the first time, Antioch is to witness a track meet on the afternoon of May 26th at the Antioch High School grounds.

The meet is being sponsored by the Antioch Chapter of The Future Farmers of America and only Future Farmer members will be allowed to compete.

The entries, which closed last Saturday, show that the following schools have accepted the invitation: Gurnee, Woodstock, Waterman, Marengo, Big Rock, Huntley, and Antioch.

The Antioch boys are preparing themselves for the event under the coaching of C. L. Kull, their instructor and Chapter Advisor.

According to Mr. Kull, several boys have been found who have exceptional ability but no selections have been made at this early date for the track team that is to represent Antioch.

## Pneumonia Proves Fatal To Mrs. Scott

Has Lived in Vicinity of Antioch and Wilmot for 40 Years

Funeral services for Mrs. Lena Scott, who passed away at her home Saturday morning, April 28, at her home on North Main street, were held at 2 o'clock Monday afternoon at the home and at 2:30 in the M. E. church, Antioch, with the Rev. L. V. Stiller officiating. Interment is in the family plot at the Wilmot cemetery.

Mrs. Scott's death followed an illness of two weeks due to pneumonia, and came as a shock to her many friends in this community, where she was well-known and respected.

Born in England She was born in Lincolnshire, England, July 23, 1866, a daughter of Mr. and Mrs. James Hockney. When a young woman she came to America, and settled at Brighton where she lived until 1893, when she was united in marriage with Frank Scott.

She and her husband moved to Wilmot, Wis., where they made their home until 1916, when they moved to Antioch, locating on a farm a mile and a half east of the village. Following the death of her husband in 1925, she moved to the village in 1927, and has resided here until her death last Saturday.

She is survived by one daughter and two sons, Mrs. A. Loveston, Silver Lake, Fred and Walter Scott of Antioch; three stepchildren, Mrs. R. C. Gardner, Burlington; Mrs. H. E. Vincent and William Scott of Twin Lakes; twenty-two grandchildren; and a brother, Fred Hockney, England.

She was preceded in death by a stepdaughter, Mrs. William Klein, who died in 1928.

## Lux Glorifies Electrical Shop

The Lux Electrical Shop is assuming a brilliant springlike aspect this week, as coat after coat of paint is applied. The upper story is a solid grass green with the lightning streak a mandarin yellow, and trimmings blood red. The lower story is being painted a Spanish heliotrope, according to the combined visions of Charles Lux and Sam Tarbell.

## Mother's Day Stamps Issued by Govt.

Special Mother's Day three-cent stamps, purple in color, have been issued by the U. S. government to the amount of 250,000,000 according to James Horan, Antioch postmaster.

The stamps, which are twice as large as ordinary stamps, bear a miniature reproduction of the famous painting, "Walter's Mother," with the words, "In memory and in honor of the mothers of America."

## New Sub Launched for Our Navy

Looking much like the sleek sperm whale for which it was named, Uncle Sam's newest undersea craft, the Cnchalet, takes to its element as it slides down the ways at Portsmouth, N. H.

## Regan Wins Appeal In Legal Dispute

After a see-saw legal controversy lasting nearly a year, all disputes and claims made in the Scott's Dairy-Swanson case have been cleared up, according to Justice William A. Regan, who said that he won the decision last week in an appeal against a judgment rendered against him by Swanson last winter.

The battle arose when an auto accident occurred July 2, 1933, involving a truck operated by Scott's Dairy, and Harry B. Swanson of Deep Lake. Swanson sued Scott's Dairy for damages. The case came to trial before Justice Regan in September and a decision was rendered against Swanson.

Following up his advantage, Walter Scott reversed the procedure and sued Swanson for damages in October and succeeded in obtaining a judgment against him for damages amounting to \$102.14.

During the winter, Swanson brought suit against Regan for rendering an adverse and unfair decision, before Justice Hoyt, of Waukegan, who upheld Swanson and issued a judgment against Regan. Regan appealed the decision to the circuit court, and his appeal was granted April 23 by Judge Ralph Dady.

## Mastne to Pitch for Waukegan Team

Howard Mastne, formerly star pitcher for Wesleyan university, has signed to pitch for the K. of L. club in Waukegan. It became known here this week. The Lithuanians last year were champions of the Lake Shore league and were also winners in the Waukegan city tournament.

The House of David team, starring Babe Didrickson, will play the K. of L. the afternoon of May 14. Mastne has worked against this team on previous occasions.

## Antioch Men Return After 5 Months Trip

T. S. Reynolds, retired printer, and O. W. Buttress, former Chicago banker, returned Wednesday after a five months sojourn in the southland. Much of the time was spent touring in Florida, the pair living in their auto trailer which they built here last November. The trip covered a total of 3,500 miles and the men took in all the sights worth seeing wherever they went. At St. Augustine they visited the oldest house in America, a structure 320 years old, and now a part of a state museum exhibit.

Mrs. Joe Wetzel, Miss Peggy Gerbrich, and Miss Helen Shennings visited the latter's parents, Mr. and Mrs. Fred Shennings, at Silver Lake Monday evening.

Mr. and Mrs. James Dunn were Sunday evening callers at the home of Mr. and Mrs. Arnold Buschman, Twin Lakes.

Mrs. Bertha Elwood and Mr. and Mrs. Don Hinchley spent Monday afternoon in Kenosha.

Wilson King of Chicago is visiting at the home of his sister, Mrs. Frank Powles, this week.

Mrs. Irving Elme called on her aunt, Mrs. Joseph Smith, Trevor, Friday evening.

## C. A. POWLES, MEAT MERCHANT, SUDDENLY CLAIMED BY DEATH

Has Conducted Meat Market Here for About 38 Years

Antioch residents were deeply shocked and surprised to learn of the sudden passing of Charles A. Powles, well-known retired meat merchant, at 4:15 yesterday morning following a week's illness.

Powles was one of Antioch's most popular and genial business men, and his loss will be felt greatly in this community. He had appeared in excellent health until his illness last week which resulted in his death Wednesday.

Funeral services will be held tomorrow afternoon, in charge of the Sequoit Masonic Lodge at 2 o'clock from the Strang Funeral Home. Interment will be in the Hillside Cemetery.

Well-Known Here Powles was well-known throughout this section of the country, as he has lived in Antioch for nearly forty years, and spent his boyhood in Union Grove. He was born Sept. 18, 1869, at Union Grove, Wis., the son of Henry and Martha Powles. He received his education in the Union Grove Public School. He was united in marriage to Miss Irma Van Patten.

He and his family moved to Antioch about thirty-eight years ago, and he operated a meat market. For many years he conducted his meat business with his son Frank on Lake street, until his retirement about two years ago.

He was a member of the Sequoit Lodge A. F. and A. M., Antioch.

He is survived by his wife; two sons, Frank and Laurel, both of Antioch; his mother, aged 89, of Union Grove; and one brother, Frank Powles, of Union Grove.

## No Hope For Improved Railway Mail Service Here, Postmaster Says

There is no hope in the immediate future at least, for improved railway mail service for Antioch, according to Postmaster James F. Horan, who stated that the government has declined to enter into a contract with the Soo line railroad for having mail carried on the "Mountaineer," a northbound mail and passenger train due here daily except Sunday at 11:00 a. m. The "Mountaineer" is a summer tourist train and is operated but three months during the year starting in June, and it was for this reason, government officials stated, that a contract was not granted for carrying mail on this train.

Mail is dispatched from the local postoffice but twice daily—at 6:00 p. m., and 7:00 a. m., except Monday. Both mails are carried by southbound Soo trains at 9:42 p. m., and 7:19 a. m. These trains also bring mail to Antioch and the only other incoming mail is from a southbound train at 3:20 a. m. This mail is held at the Soo station until the postoffice opens at 6:30 a. m. The postoffice closes at 6:00 p. m.

## FISH REFUSE TO BITE, ROSING FINDS

William A. Rosing returned from a three-day fishing trip at Crandon, Wis., yesterday evening, and reported no luck, as the lakes up there are not entirely free from ice. Crandon is about 324 miles from Antioch in northern Wisconsin.

Rosing was accompanied on the trip by Frank Stanton, Robert Lobdell and Homer Cook of Waukegan.

## Mrs. S. M. Walence Undergoes Operation

Mrs. S. M. Walence was reported to be resting more easily this morning, although her condition is still quite serious, following a major operation performed at the Burlington hospital Monday morning.

## Board Approves Mayor's Appointments

The village board Tuesday night approved President George E. Bartlett's appointments of committees for the fiscal year, which were the same as last year. The committees for the year, the first named being chairman, are as follows:

Finance—Hawkins, Shibley, Stearns, Water and Sewer—Shibley, Drom, Vos.

Streets and Alleys—Hawkins, Stearns, Vos.

Lighting—Vos, Lux, Drom.

License—Shibley, Hawkins, Vos.

Salaries—Hawkins, Stearns, Drom.

Public Buildings—Vos, Drom, and Stearns.

The Auditing Committee comprises the entire board, as does also the Board of Public Improvements.

Dr. Harry F. Beebe was re-appointed Health Officer.

Stearns Continues as Fire Chief Fire Chief James Stearns was re-appointed for the tenth consecutive year, the appointment having been recommended by the department.

Miss Hilma Rosing continues as collector of special assessments, and E. M. Rensyard was re-appointed village attorney.

The board accepted Village Clerk Murrie's bond.

The mayor and board members voted to accept the firemen's invitation to attend the Lake County Firemen's convention at Libertyville on May 26.

Marshal on Leave Village Marshal Simon Simonsen has been granted a thirty-day leave of absence and Pete Petersen is substituting during the period. This was the recommendation presented by Mayor Bartlett and upon which the board did not act. Fred Petersen also was re-appointed for the thirty-day period.

No Action on Street Matter No action was taken toward making use of the state gas tax money granted by the state for curbing and guttering Harden and Spafford streets. Grade levels are yet to be established and the engineer's estimate submitted before any part of the work can be started, officials stated. The contracts, according to provisions of the grant, should be placed by July 1.

## Average Antioch Citizen Spends \$500 A Year in Local Shops

Residents of Antioch and vicinity spend approximately \$500 per person in the retail stores and shops here each year, according to an estimate made by the Chicago Wholesale Market Council.

The state of Illinois' total retail trade of about three and a half billion dollars is about equal to the volume of wholesale trade of Chicago, whose Wholesale Market District, lying just west of the famous "Loop," is considered one of the greatest in the world.

The estimate is based on the total retail trade of the state and the population, both reported in the latest United States census.

The \$500 per person, or about \$2,000 per family, spent with Illinois merchants includes all purchases, except for personal services, such as laundry and barbering.

## DON'T SCUTTLE THE PAST

Perhaps the greatest danger we face in building for the future is that we may forget the traditions and heritages of the past.

Under the stress of enthusiasm for a new idea, a plan, a cause, it is easy to throw overboard all that has gone before. Because we feel strongly concerning abuses and inadequacies that have appeared in the existing system, we are likely to correct them in a manner that will not only do away with what is bad, but with what is good as well.

That is especially applicable to this country at this time. Great changes are under-way. The intentions of those who are behind them are undoubtedly of the best. It is the desire to safeguard against the potential depressions of the future—as well as to bring recovery now. We are seeking a permanent, balanced social and economic order, that will provide greater opportunities for the masses of the people.

The danger lies in the possibility that in seeking this, the American tradition of individualism and freedom will be destroyed. Signs of the growth of fascism and socialism in America are increasing. Responsible observers believe the menace of dictatorship cannot be exaggerated. Simple democracy, which gave business and individuals the full chance to work out their destinies, is languishing.

There can be great progress within the fabric of the American tradition—the past is the best witness to that. Change that forgets or ignores that tradition could easily do grave harm to the common welfare.

## FARMER COMING OUT OF THE RED

There is good news for the farmer in a late Department of Agriculture report. The farm price index, on March 15, was at 76, as compared with 59 a year ago. (The 1909 to 1914 average equals 100).

In addition, the index of prices that farmers pay for the things they buy was 120, as compared with 100 a year earlier. In other words, the price received for what the farmer sells has gone up 52 per cent in a year—and the price he pays has risen but 20 per cent, leaving him a substantial advantage.

A great deal of the credit for that must go to the farm cooperatives. They have put in what is possibly the hardest-working, most aggressive year in their history. They have brought home to their members the necessity of crop entrenchment. They have steadied

markets, and held up price levels in the face of strong adverse conditions. They have had a commanding voice in agricultural, monetary, export and other legislation affecting the producing and marketing of agricultural commodities.

Those are definite achievements. And during the present year, the co-ops are carrying on their campaign for better, and more prosperous farming with unabated energy and vigor. The outlook is better than at any time since 1928. The attitude of the average farmer toward his cooperative is more understanding—and more enlightened.

## LET'S MAKE OUR TOWN CLEANER AND SAFER!

Right now Spring is in the air, and nature, in her annual awakening, is doing her utmost to beautify this old world of ours. A little help on our part would not be amiss.

In the Winter many things are neglected. Vacant lots, yards and even streets become unsightly. Now is the time for a thorough spring cleaning, in the interest of better health, safety and improved appearance.

Such a clean-up campaign is a splendid activity for civic clubs, chambers of commerce or Boy Scouts to sponsor. One of them will have to assume leadership in order to start the ball rolling, then obtain the co-operation of others. Streets and parkings should be cleaned. Vacant lots, cleared of rubbish, can be made into healthful playgrounds, parks or gardens. Not the least important phase of this work is the jobs it provides.

When a movement to clean-up, paint-up and beautify sweeps through a community, it leaves in its wake a healthier, safer and more sanitary town than it found. From the angle of fire safety alone, it is worthwhile. In this connection it is interesting to note that the National Board of Fire Underwriters reported that during the year 1932, rubbish and litter caused a fire loss of almost \$1,200,000 throughout the United States. Let's beautify our communities—and save that money this year.

## WEEDS IN THE GARDEN

There are thousands of persons throughout the nation, and a small army of lawmakers in city councils, state legislatures and congress, who seem to feel that the way to bring about recovery from depression is to destroy private business and undermine public confidence in capital.

Their theories remind one of the weeds in a garden, they flourish until the owner realizes that they are sapping the strength of the productive plants on which they depend for a living. And then they are quietly removed.

The people may find it necessary to do considerable weeding in their political gardens before long if they wish to retain time-tested American traditions and ideals.

"Until private industry is made profitable and attractive, and the rewards of success are made available to business men, there can be no full recovery from the depression."—David I. Walsh, United States Senator from Massachusetts.

## YOUR CHILD AND THE SCHOOL

By Dr. ALLEN G. DELANO  
Director, Physical and Health Education  
New Jersey State Department of Public Instruction

### Worth Passing On

The nature of my work brings me in almost daily contact with schools and school work, and so naturally I pick up many ideas which seem worthy of passing on.

One high school is collecting old lawn and beach lounging chairs in the community. The boys repair the frames and the girls mend

the canvas. The chairs are then placed on the playground during the warm, sunny days of autumn and spring. At first, they were assigned to students selected by the school physician as undernourished, fatigued cases, and others excused from physical activity. But now other students take daily sun baths while studying or passing a social hour.

Many school nurses hold regular monthly meetings for parents when the health needs of children are discussed.

Tuberculin testing is on the increase; likewise immunization for diphtheria.

The old-fashioned final written examination is gradually passing out of the picture.

The selling of candy at school is being frowned upon.

The tide of protest against home work is rising.

Dr. Ireland will discuss the after-school luncheon in his next article.

If your merchandise has merit, advertising will sell it. If not, it's wise to keep still and wait for suckers.

### Albert J. Tiffany Weds Chicago Girl

An impressive wedding ceremony was solemnized Saturday, April 28, when Albert J. Tiffany, well-known farmer, son of the late A. N. Tiffany, and Miss Winifred Shusser, daughter of Mr. and Mrs. Thomas H. Shusser of Chicago, were united in marriage by the Rev. S. E. Pollock, former pastor of the Antioch M. E. church. The ceremony was performed at the home of the bride's parents.

The bride, who was attired in a simple white lace gown and carried a lovely arm bouquet of ferns, white gardenias and sweet peas, was given away by her father. Her sister, Eleanor, wearing a gown of pale blue lace and carrying an arm bouquet of red roses and white carnations, was bridesmaid. Hon. Tiffany, brother of the groom, was best man.

The bride was graduated from the University of Chicago in 1933 and is a member of Delta Sigma. Mr. Tiffany is a graduate of the University of Wisconsin and is affiliated with Delta Theta Sigma.

The wedding arrangements were quite informal and simple, with only relatives and intimate friends of the bride and groom present for the occasion.

Following the ceremony, the young couple left for a short trip to Michigan. They will be at home to their friends on the Tiffany farm west of town after May 1.

## FARM AND GARDEN TOPICS

By C. L. Kutt  
Best Vegetable Varieties Listed for Illinois Gardens

Every season adds a few more new varieties of vegetables available to Illinois gardeners, and 1934 is no exception, says D. L. Weaver, of the horticultural department at the College of Agriculture, University of Illinois.

This ever-increasing list of varieties is often confusing to the market gardener, and even more so to the farmer or home gardener, unless it is realized that many of the new names mean only a slight change in size, shape, color, texture, flavor, season or productivity, points out Weaver.

After many tests under varying conditions, the experiment station at the College of Agriculture, University of Illinois has singled out a number of varieties found to be most applicable to Illinois conditions and which can be recommended to most growers. These varieties include:

Asparagus—Mary Washington.  
Green snap bush beans—Stringless Green Pod and Bonifant.  
Yellow bush beans—Pencil Pod Black Wax and Round Pod Kidney Way.

Pole Beans—Kentucky Wonder.  
Dish Lima Beans—Henderson's, Fordhook and Burpee.  
Beets—Early Wonder for early

GRADE  
SCHOOL  
NOTES**"In School Days"**HIGH  
SCHOOL  
NOTES**SENIORS PLAY TO  
CAPACITY AUDIENCES****Convey Vivid Charm of  
Mythical Scenes and  
Gypsy Life**

Playing to a capacity house, the Senior Class presented their play, "Once in a Lifetime," achieving a noteworthy success in a type of play seldom produced by high school students. The play was presented on Friday and Saturday nights by two different casts. Attendance at the first performance was said to total 500 persons, with an almost equally large audience on Saturday night.

The scenic and electrical effects secured were exceptionally fine, with a most realistic thunder storm to "cap the climax." The play opened on "The Vagabond," a gas station operated by Jeff Ross, a humorous practical man prejudiced against loafers and violin players. Paul Zelen and Harold Fenema, both did exceedingly well in this part.

**Leads Well-Chosen**

The leading roles were well-portrayed by Jean Van Patten and Reta Hawkins as "Laurie," a niece, whose vivacious acting charmed the audience; and Raymond Hussey and John Newman who assumed the role of Konrad, the adopted half-gypsy son of the Ross family, with all the enthusiasm and dreaminess required. Comedy highlights were provided by Rodney, the village half-wit, played with an inimitable idiosyncrasy by Clayton Bartlett and Walter Simonsen. Stella, the domestic, well acted by Charlotte Meyer and Beatie Lyons, also provided laughs with their clever quips.

The role of the Doro, gypsy chief, was impressively taken by Delbert Sherwood and John Descher, while the part of the Daya, gypsy queen, was played with dignity and grace by Thelma Schlex and Bertha Overton.

**Display Charm and Grace**

One of the most graceful and spontaneous roles was portrayed by Helen McVicar and Lillian Laursen, both of whom entered into the part of Zara, the favorite daughter of the gypsies with ease, vivacity, and natural talent. Stan, Zara's jealous gypsy lover, was excellently played by Kenneth Hills, in a typical strong, sullen manner.

Elleen Philippi and Helen Galliger acted the part of Mrs. Ross, whose love for her adopted son and fear of his departure made her unhappy. Jack Panowski and Clair Hewitt were typical as the author friend and played the part with the natural polish and ease of successful authors. The roles of Kathinka, played by Thelma Cunningham and Roberta Haase, and Carmena, played by Margaret Dibble and Louise Rothers, proved lively complements to the more brilliant acting of Zara.

Mrs. M. K. Phillips, director, said that in choosing this play, she sought to select one with a more worthwhile plot which required a higher sense of dramatics than the type usually presented by high school students. Mrs. Phillips was largely responsible for motivating the work accomplished in attaining the marvelous scenic effects, particularly in the mythical scene featuring Centuria, a mythical city, and the effective gypsy campfire scene.

**Prepare for G. S.  
May Music Concert**

The annual spring Music Concert sponsored and presented by the music departments of the Antioch grade school will be held tomorrow evening, May 4, under the direction of Hans von Holwede. The concert is being held May 4 instead of May 11 as stated last week.

The concert will be presented by representative groups from every class, and will include the Girls' Glee Club, the Jazz Band, regular band, western boys, and selected groups and solos.

Admission prices are 15 and 5 cents.

In addition to other graduation activities, the Senior Class of the Antioch Township High School voted to hold a Class night, Monday evening, May 28. Jack Panowski has been appointed chairman of the committee in charge.

Final examinations for eighth grade students for the rural schools in this vicinity will be held at the high school next Wednesday, May 9.

**GRADE SCHOOL TO  
HOLD OPEN HOUSE**

Displacing the annual Exhibit of work and projects accomplished during the year, the Antioch Grade School is holding an open house for parents, patrons and friends to be held from 9 A. M. to 4 P. M. next Tuesday and Wednesday, May 8 and 9.

The children will be present on those days, and classes will be carried on as usual. In this way, an endeavor is being made to acquaint the parents with the type of teaching actually being carried out at the school. This will give them a deeper insight into academic conditions, rather than the results of projects which the former Exhibits tended to emphasize.

Visitors are invited to enter any room without knocking and to leave at any time. Interviews with the teachers may be secured during intermissions.

**Fox Lake Defeats  
G. S. Baseball Team**

Reversing the outcome of a practice game between the Antioch and Fox Lake grade school baseball players, Fox Lake defeated Antioch in a conference game Tuesday night, 13-8. Miller and Crandall stamped the pitcher's plate for Antioch.

The next game scheduled is with Grayslake this afternoon at Grayslake. The game arranged with Lake Villa for last Friday was indefinitely postponed.

**SCHICK TEST APPLIED  
TO G. S. STUDENTS**

The Schick test to determine immunity to diphtheria was applied to sixty-nine pupils of the Antioch grade school yesterday morning by Dr. R. D. Williams, assisted by Mrs. Boyd, registered nurse. Of this number, twenty-nine at some previous time had been inoculated with toxoid.

The regular toxoid inoculation will probably be made tomorrow or Monday of next week, according to Prin. H. E. Clabaugh, who stated that those parents who had not yet returned permission slips or desired to change their decision, might still do so.

The Foods Class served its members a buffet luncheon Tuesday. Andrea Dalgaard was selected to act as hostess. The menu which included baked ham, potato salad, hot rolls, celery, orangeade and ice cream was prepared by members of the class.

Ralph E. Clabaugh attended the business meeting of the Lake Shore division of the Illinois Teachers' Association in the Cook County Courthouse, Chicago, Saturday. The date for the fall teachers' meeting has been set for October 29, at Evanston.

**Simplify Cooking, With Milk,  
Fruits, Corn and Potatoes**By WALTER W. McLAUGHLIN  
Director, Illinois Department of Agriculture

THIS business of helping the farmers of your state is far from being a one-sided affair, for when you help them you help yourselves—your health, your appearance and your food budget. Also, you can make your housekeeping easier if you utilize

WALTER W. McLAUGHLIN, DIRECTOR, ILLINOIS DEPARTMENT OF AGRICULTURE

these Illinois-grown foods. Milk and the three fruits—apples, grapes and peaches—are delicious in their natural form and require no cooking by the housewife; and potatoes and corn are among the most easily prepared vegetables, requiring little special care in cooking to safeguard their vitamins.

Breakfast in many households is a neglected meal. One reason for this is probably that less attention is paid to making it attractive and varied than is given to the other meals. Some variety in foods is desirable for it promotes appetite which is, of course, most important because no matter how nutritious the food you set before your family, it won't do them any good if it's so unattractively and monotonously prepared that they won't eat it.

**Help to Utilize Excess  
Food by Canning, Pickling**By WALTER W. McLAUGHLIN  
Director, Illinois Department of Agriculture

ONE of the most deplorable things about the period we have just been going through is that food has been going to waste while people went hungry. One way to remedy this situation is for individuals to store away

WALTER W. McLAUGHLIN, DIRECTOR, ILLINOIS DEPARTMENT OF AGRICULTURE

this excess food for such time as it is needed—by canning and pickling. Fortunately, some of our Illinois foods do not need any special attention to preserve them. Milk, of course, is supplied fresh every day, so there is no need to preserve it and the dependable apple and potato will both keep in storage. But grapes, peaches and corn must be preserved or canned. Of course apples, too, can be preserved—in the form of jelly, apple butter and so on.

Grape juice is one of the most attractive ways of conserving grapes.

An easy way to provide that important attractive variety is to substitute for the regular "orange juice, toast and coffee" breakfast, one made up of apples, grapes or peaches, toast or cereal and fresh milk. In this way you'll be patronizing the farmers of your own state instead of "so orange growers of California and the coffee planters of South America, and you'll be gaining in food value and taste as well, for by substituting milk for coffee you will be truly exchanging something for nothing, as coffee has no nutritive value, whereas milk comes near to being a complete meal in itself with its abundance of protein, vitamins A and C, calcium and phosphorus.

If you put peaches on your breakfast menu you will be giving your family vitamins A and C and some iron (dried peaches are especially rich in iron); and if you exchange grapes or apples for oranges you will be getting some of that same Vitamin C that is in oranges, plus some Vitamin B and valuable minerals. (And you don't have to squeeze your Illinois fruits.)

Illinois Foods in the School Lunch. Another place where the products of your own state will help make your housekeeping easier is in preparing the child's school lunch. Of course milk is the one essential that should never be omitted from that lunch, and Illinois' chief fruits—apples, peaches and grapes—are, conveniently, all of the easily carried type.

Enough about convenience in feeding the family. Now, how about the housewife's convenience in feeding herself? If you would like to reduce weight but hate to try following a reducing diet because of all the trouble in preparing special thinning dishes for yourself, this Illinois-products menu you are feeding your family will solve that problem. For fresh milk, fruits and vegetables are light at the top of the list of reducing foods, because they satisfy appetite without adding pounds. You will have to go lightly on the potatoes and corn. It is true, for they do have a high starch content, but the other foods—the milk, grapes, peaches and apples, should be standbys of your reducing diet.

Although this drink has long been recognized for its pleasing taste, it was only comparatively recently that it was found to be of value in preventing acidosis—a quality which had previously been credited chiefly to the citric fruits. Preserves and conserves are other forms in which grapes are particularly appetizing.

Although fresh foods are usually considered superior to the canned in flavor, they are not always. To cite one example—peach pickle is a delicacy on any table. And if care is taken in the cooking process the canned foods will have approximately the same food value as the fresh.

**Save the Vitamins.**

In canning any one of these three foods—peaches, grapes or corn—care should be taken to avoid oxidation and over-cooking as this is destructive to the vitamins A and C, one or both of which is present in good quantities in each of these foods and should not be lost.

Whether you are canning vegetables or fruits, be sure that you select fresh, firm products in excellent condition. Cleanliness is another item of paramount importance. In canning vegetables first scrub them thoroughly in running water if possible, then prepare them as for table use and cook them immediately. When completely heated to the boiling point, put in clean hot jars and seal tightly.

Not all vegetables are attractive when canned; corn is one of the comparatively few which is popular in canned form as well as when fresh. A can of corn is one of the most convenient things a housewife can have on hand, for by adding to it milk, cheese or egg, she can create a complete meal in one dish.

Millburn school was the scene of a very pleasant surprise Tuesday evening. When Miss Katharine Koertge, teacher, arrived for the usual P. T. A. meeting, she found the room transformed with chairs and rugs and decorations, with a huge may-basket in the center of the room heaped with presents for a miscellaneous shower. Miss Koertge is to be an early June bride. After the usual business of the P. T. A. was transacted, an appropriate program was given, and a social hour followed with a dainty lunch.

Moving pictures will be shown at the Oakland School house by County Superintendent W. C. Petty, in an entertainment sponsored by the P. T. A. Saturday evening, May 5. Following the pictures, men will "buy their shadow" for a lunch partner. Lunch will be served by the P. T. A. The meeting will start at 8 p. m. Daylight Saving Time.

## EXTRA CARE WILL LENGTHEN LIFE OF SILK HOSE

### Casualties Largely Due to Neglect After Few Wearings

The life of the silk stocking is short enough at best—ten to fifteen wearings is the estimate—and yet authorities claim that 90 per cent of the casualties are due to carelessness. There is always a twig, a hangnail, or a ring to snag or pull threads, thereby ending the life of the stocking in its mere infancy.

The most murderous treatment for silk hose is putting them on by pulling them on your foot through the entire length of the stocking as you would put on a boot. Rather, hosiery should be put on like a glove, ruffling it down to the foot, placing the toes in the toe of the stocking, gradually working over the heel and then unfolding carefully up to the hip, straightening the seam as you go.

#### Stretching Causes Popping

Do not buckle your stockings too tight—stretching them in one direction reduces their elasticity in the other. If you have them stretched to the limit and inadvertently bend a knee there is bound to be a pop, either over the kneecap or at the back hem.

Proper laundering adds much to the life span of stockings. Wash as soon after removing as possible, before perspiration has an opportunity to damage the silk fibers. Use a pure, mild soap in lukewarm water. Soap flakes are good because they do away with dangerous rubbing. Rinse in clear water three times and press out moisture without wringing. Hang the hosiery in a shaded place and allow to dry in ordinary room temperature. Direct heat is not advisable and direct rays of the sun tend to weaken the delicate silk fibers.

#### Buy Hose That Fit

Save your stocking bill further by buying those brands and only those that fit your foot and your figure. If you are unusually streamlined buy those of extra length to avoid too much stretching. Or perhaps the shoe itself is helping to increase the hosiery death rate. If the lining is worn or the shoe is too short there will be unnecessary friction and eventually holes. If the sandal straps are rough they are bound to mar the silken surface, and if shoes don't fit the stockings are apt to slip down at the heel, causing undue wear, besides great discomfort. As a final warning keep the toenails smooth and well-trimmed.

## OUR CHILD AND THE SCHOOL

By Dr. ALLEN G. BELAND  
Director, Physical and Health Education  
New Jersey State Department of Public Instruction

### The After-School Luncheon

The "after-school snack" for which most children plead is not difficult to justify. At the same time it calls for a word of caution.

In support of "just a bite" we have the probable presence of hunger, especially if a light luncheon at noon is the rule.

The school child is in the growing stage. His body literally demands food, for such is the meaning of appetite. He is usually active and food is the source of energy for all activity, whether mental such as school studies, or physical such as play.

For the snack, a glass of milk is ideal. A slice of buttered bread, an orange, an apple, or a simple sandwich are also good. The cautions are these: Sweets in any form, even the hallowed jam, are taboo. They spoil the appetite too readily. The time and nature of the evening meal must be taken into account. If it is dinner, at an early hour, probably the "snack" should be overruled. If it is a light supper or a late dinner, let the child have his mid-afternoon lunch. But watch his appetite to see what the effect is. Let experience guide you.

Finally, if the child is overweight and not inclined to active play, the "snack" is probably a bad habit that should be corrected.

The humble tomato and its value will be described in Dr. Ireland's next article.

## Child Welfare Work Is Furthered By Sale Of Poppies

### Orphans and Children of Disabled Vets Share in Poppy Sale Benefits

Further questions and answers pertinent to the history and purposes of the symbolic poppy have been submitted by Mrs. Ethel Pesat, chairman of the Poppy Sale Committee of the American Legion Auxiliary.

Question: Why should the Legion and the Auxiliary go to the public for the relief of their disabled?

Answer: Because the funds derived from the American Legion dues and Auxiliary dues would not begin to cover one-tenth of the service needs of a Department, Post or Unit, and if these organizations were not taking care of their disabled buddies and their dependents it would simply mean more service rendered by a community resulting in increased taxation.

Q: Do these men receive anything for making these poppies and how much?

A: The men in the hospitals receive one-half cent for each poppy they make, payable immediately following the making of poppies.

Q: Is any of the money obtained used for other than service and relief work?

A: Not a cent is used for other than service and relief work; in fact more money is spent by Posts and Units for relief than is obtained from the poppy sales.

Children whose fathers were killed or disabled in the Poppy-studded battle field of France will be among those benefited by "Poppy Day," Saturday, May 26th, when replicas of the French poppies will be worn throughout the United States in tribute to the World War dead.

The funds donated for the little red memorial flowers will go to support the work of the Legion and Auxiliary for the welfare of the disabled veterans and the children left fatherless by the World War.

The bulk of the funds collected here will be used by the Local Legion and Auxiliary organizations in meeting the needs of disabled veterans and needy children of veterans in this city during the coming year.

Every penny of the dimes, quarters and dollars dropped into the contribution boxes of the Poppy workers Saturday, May 26th, above the bare cost of the materials in the flowers, will go to the disabled and the children. The poppies have been made by disabled veterans and the workers who will distribute them on the streets.

## Did You Ever Try These Recipes? Do, Please

### Luncheon Rice

Boil one cup of rice in three pints of rapidly boiling water, to which you have added one teaspoon salt, till tender, but not broken. Drain, rinse and place in casserole or baking dish. Meantime heat one cup chicken soup to boiling; dilute with one cup hot milk, pour over the rice, sprinkle with fine bread crumbs and bits of butter, then bake for ten minutes. Sprinkle with chopped parsley and serve in baking dish.

### Butter Scotch Meringue Pie

Bake pastry before putting in filling. For this cook in a double boiler 1 cup brown sugar, 1 cup milk, teaspoon melted butter, a small pinch of salt, and 3 tablespoons flour. Add the beaten yolks of 2 eggs and cook until thick as custard. Turn into the baked shell, cover with a meringue made of the two egg whites well beaten with 2 tablespoons powdered sugar and a tiny pinch of cream of tartar. Set in slow oven until lightly colored.

### Apple and Celery Salad

Cut in small bits enough crisp celery that has been scraped and rinsed to make a cup. Put in ice water until ready to mix salad. It can stay in the water all night if in refrigerator, and be all the crispier for so doing. Peel and cut four apples into dice and put in cold water with a teaspoon salt. When almost ready to serve, drain celery and apples, mix with a thick mayonnaise and serve very cold.

### Candied Grapefruit Rind

Rind of two bright colored grapefruit.

Sugar and water. Peel the fruit and cut in long strips. Cover with cold water, bring slowly to boiling point, pour off water, add fresh water and repeat boiling process three times, after which simmer rind in water until tender. Measure, add on equal bulk of sugar and continue cooking until rind is clear and syrup is almost evaporated. Drain thoroughly and roll strips of rind in granulated sugar. Spread apart to dry a little before packing away.

streets have volunteered their services. When the people of Antioch contribute for their poppies, they can be sure they are giving directly to the welfare of the War's living victims.

## HOLD ON TO YOUTH

### Your Eyes Reflect Your Health

By Marie H. Callahan, Editor  
Modern Beauty Shop Magazine

If your vitality is low, if you have been keeping late hours, or working under too great a nervous tension, your eyes will probably be the first part of you to be noticeably affected. You are all familiar with the dark circles under your eyes that weariness brings on. And your physical condition is also largely responsible for a "lack luster" quality in the eyes themselves. Or eyestrain may have this effect.

If you had to hold your arm in one position all day long you would naturally expect to feel discomfort in the muscles of that arm; yet a large proportion of people employed in indoor work are keeping their eyes in the same position—downward—all day long without doing anything to counteract the effect of the constant strain. True, the eyes do not at first give the sharp painful warning of overstrain that your arm thus abused would, but the strain is there just the same. To offset the effect of this constant downward looking, try deliberately exercising your eye muscles every day. In addition to this, look up whenever you can—when walking, traveling the street car to and from work, and so on.

After doing close work for any length of time, shut your eyes for a minute; then focus them on a distant object. Wash the eyes twice a day in an eye cup full of boracic acid solution. At night, massage a little food cream around them.

Then there are definite eye diseases that detract from eye beauty. Sties are usually brought on by poor physical condition. Gentle massage with clean fingers and hot compresses of boracic acid solution can be used as immediate treatment for this condition. But the most important thing in treating this eye trouble, as in many eye troubles, is to build up the general health, making sure that your diet is built around fresh milk, fruits, and vegetables and that you have plenty

of sleep, and exercise in the fresh air. Xerophthalmia is an eye disease caused by lack of Vitamin A. Lack of time in the diet will also cause eye disturbances. The best source of both these elements is fresh milk.

We can't change the actual color of our eyes but we can do wonders toward beautifying them. Grooming of lashes and eyebrows is important. And recently the eye make-up which are on the market have been greatly improved until now when artistically applied, eye shadowing may be suitably used even in the daytime.

Of course, just as the color of the sky will be reflected in the color of a lake or stream, so also can the colors of a woman's dress, hat or jewelry affect the seeming color of her eyes. Those with pale blue eyes should avoid strong, bright blue and wear dark, soft, misty blue. Orange will give strength to a faint blue. Gray-eyed people should shun brown, yellows, or warm reds, and wear instead soft blues, cool greens, and purplish reds.

Beautiful, expressive eyes can transform your entire appearance, so surely it is worthwhile to give them most careful attention.

## Fresh Pasteurized Milk— A Permanent Pick-Up

Juliette Ware and George Blackwood, Warner Bros. featured players, drink a toast out of milk bottles in the studio's restaurant.

ARE you nervous, tired, feel pretty low at three o'clock in the afternoon, been increasing your quota of alcoholic beverages lately? Better increase your quota of fresh milk too then, because you're going to need a nerve tonic of some sort, and while you're about it you might as well select one that's pleasant to use.

Of course fresh milk is well known as a good "pick-up" after overindulgence. But if you use it regularly in abundance, you'll discover that it's also a "permanent pick-up," helping to counteract the bad effects of post-prohibition evenings, because good old-fashioned milk is a great builder-up of the healthy body that can "take it" and still look young and beautiful on the morning after.

The function of food in preserving beauty is one that has long been overwhelmed and forgotten in the mass of beauty preparations for use on the outside which are constantly being presented to the modern woman.

Beauty Treatments That Are Inexpensive and Easy.

And you don't have to go out to expensive bars or beauty parlors to get your beauty foods—nor do they cost you forty cents for a few drops. Just sit at home and let the dependable milkman and grocer deliver these inexpensive beauty treatments at your door. Furthermore there is no law about your passion while drinking

your milk. You can take it standing up or sitting down, or standing on your head if you feel that way about it. (However, it's guaranteed not to send you under the table.)

In bygone days our knowledge about the effect of food on beauty was confined to such false statements, designed to discipline little Mary, as "eat your bread crusts—they'll make your hair curly" and similar extravagant promises.

Now little Mary, grown up, knows that there really are foods which, when taken in abundance will make her hair healthy and glossy (if not curly); will give her a glowing complexion; healthy teeth and a more slender, well-rounded figure. Furthermore, nothing so forbidding as bread crusts is on the list—just fresh milk, fruits, vegetables and eggs are the Big Four of these beauty foods.

They do their part in making the difference between the faces reflected in that mirror over the bar or the lunch counter—they are part of the reason why the girl with the good looking young man has so much more youthful sparkle than the faded creature two seats down. So why not try taking two or three glasses of milk—your "permanent pick-up"—every day together with plenty of fresh fruits and vegetables and give these foods a chance to show what they can do for your appearance.

## GRANT ACE HURLS JAVELIN 164 FT. IN MEET

A record-breaking performance by Burdock, Lake county javelin champion, who tossed the spear 164 feet, 7 inches, featured the quadrangular meet between Grant, Huntley, Richmond and McHenry last week at McHenry's track, which was captured by the McHenry team.

Finishing first in the relay, the last event on the program, McHenry scored 74½ points to nose out the Grant High school squad of Ingleside, which scored 70½ points. Richmond and Huntley tallied 3 points each.

Probably the outstanding man on the field at McHenry was Burdock, captain of Coach Walter Italski's team, which will appear at Weiss Field next Wednesday afternoon in the 8th annual Lake County track and field championships.

### Scores 18 Points

Burdock won the 100 and 220 yard dashes, placed third in the 440-yard dash and was a member of Grant's relay team, which finished second to McHenry. He won the individual honors in the quadrangular with a

total of 18 points. A week ago he scored 22 points to lead Grant to a victory over McHenry in a dual meet.

His toss of 164 feet, 7 inches, in the javelin throw bettered his own Lake county record by nearly 3 feet. Indications point to a hot fight between Grant and McHenry in the Little Six conference meet on May 6th, and in the Palatine relays today.

Here is the summary of the McHenry competition:
